

## Overzicht AIS

### Profile AIS Airlines

AIS Airlines holds the EASA - Air Operator Certificate (AOC). Founded in 2009. The head office is located at Lelystad-Airport, but most operations take place in Scandinavia and Germany where AIS operates its own route network. AIS Airlines is connected to all major ticketing networks such as Amadeus, Galileo and Saber.

The type of aircraft with which AIS Airlines performs its scheduled services is a Jetstream 32. This turboprop aircraft can fly to almost all airports in Europe and is therefore ideally suited for business aviation & Cargo. Our customers are mainly business travellers who require a safe and fast operation.

- EASA AOC operator for scheduled and non-scheduled passenger flights as well as cargo
- Holder of a large AOC.
- Operating in Europe
- Fleet 9 x Jetstream 32
- Currently active in Scheduled Services based on own ticket sales via Amadeus, GDS etc.
- As well as ACMI flights.
